

MHC Acquisition Research Master

USA public mobile home community listings organized into one acquisition-screening PDF. Public data only; verify all figures against OM, rent roll, T12, utility bills, title/survey, zoning, licenses, and broker diligence.

Metric	Value	Meaning
Listings Captured	468	Total public source rows collected
Priced Listings	437	Rows with numeric asking/listing price
Median Asking Price	\$1,300,000	Median across priced listings
Lot/Space Coverage	354	Rows with lots, spaces, pads, or sites
Total Lots/Spaces Found	14,301	Sum where counts were public
Reported NOI Coverage	105	Rows with reported NOI
NOI or Implied NOI	145	Reported NOI plus implied NOI from price/cap
Cap Rate Coverage	147	Rows with cap-rate signal
Occupancy Coverage	119	Rows with occupancy signal
TOH/POH Coverage	72	Rows with tenant-owned or park-owned home count

Reader Note	Details
How to read it	Start with the shortlist, then use the full database appendix for all captured listings.
Best target signal	High score plus reported NOI/cap rate, lot count, occupancy, and city/public utility signal.
Blank fields	Blank means the public listing text did not expose the field, not that the metric is zero.
Follow-up package	Ask for OM, rent roll, T12, utility bills, POH inventory, debt terms, zoning/license status, and capex history.
Refresh date	June 2, 2026

Top Acquisition Shortlist

Ranked by acquisition score, then cap-rate signal and asset size. This is a triage list, not a valuation conclusion.

Field Guide

Field	Meaning	How to Use It
Data Strength	Completeness label based on public fields found.	Prioritize High/Medium rows for follow-up.
NOI	Net operating income reported by the source.	Verify against T12 and rent roll.
Implied NOI	NOI estimated from price and cap-rate data.	Use only as a screening proxy.
TOH	Tenant-owned homes.	Generally cleaner than POH-heavy operations.
POH	Park-owned homes.	Requires home inventory, condition review, and capex diligence.
Price per Lot	Asking price divided by lot/space count.	Useful for quick market comparison.
Occupancy	Reported occupancy signal.	Verify physical and economic occupancy.
City/Public Utilities	Listing suggests public utility service.	Often preferred to private systems.
Submetered	Listing suggests utilities are submetered.	Can indicate recoverable utility expense or upside.
Acquisition Score	Heuristic score from public financial and operational signals.	Sorting aid only.
